

Joint Bank Reporting Committee

Work programme of the Joint Bank Reporting Committee for 2025

1. Main priorities of the work programme

In 2025, the Joint Bank Reporting Committee (JBRC) will prioritise tasks related to **semantic integration and development of common definitions and standards** for the data that banks are required to report for statistical, supervisory and resolution purposes. The main activities of the Committee for 2025, including their timeline are outlined below. Some topics, in particular those related to semantic integration, the set of terms and definitions and common data dictionary are interlinked, and therefore, work should be coordinated between the different groups working on them. The development of these topics will be coordinated by the JBRC Steering Committee, and the delineation between the different deliverables will be further clarified once the work progresses.

The **Expert Group (EG) on Semantic Integration** comprises representatives of the authorities that participate in the JBRC, and when necessary, also representatives of the banking industry.

The **DPM Alliance** is the joint collaboration framework for the maintenance and evolution of the Data Point Model (DPM) Standard, and it is not a substructure of the JBRC. However, it is recommended that a close coordination with the DPM Alliance and its substructures is maintained in view of possible synergies/overlaps between the topics dealt with related to data dictionaries.

Activity	Carried out by	Start	End	Priority
Semantic integration: Integrated Reporting Framework (IReF) with supervisory and resolution reporting	EG on Semantic Integration	Q2 2025	Q4 2025	High
Semantic integration: Environmental, Social and Governance (ESG) (new frameworks)	EG on Semantic Integration	Q2 2025	2025	High
Coordinated implementation of NACE 2.1	Steering Committee	Q4 2024	Q2 2025	High
Set up JBRC webpages	JBRC Secretariat	Q4 2024	Q2 2025	High
Set up workspace and document repository for the RCG and the EG	JBRC Secretariat	Completed		High
Prioritisation of semantic integration of legacy reporting	EG on Semantic Integration after consulting the Reporting Contact Group (RCG) and the Steering Committee	Q2 2025	2025	Medium

Activity	Carried out by	Start	End	Priority
Maintenance and ownership of part of the <i>set of terms and definitions relevant for integrated reporting and common data management</i> , previously under the responsibility of the ESCB Working Group on Integrated Reporting and Data Dictionary (WG IRDD)	EG on Semantic Integration In coordination with the DPM Alliance	Continuous activity		Medium
Initial investigation / preparatory work on the establishment of a common data dictionary, including collaboration with the DPM Alliance (e.g., regarding the <i>data modelling and metadata principles and conventions</i> for DPM 2.0)	Steering Committee, EG on Semantic Integration, RCG In coordination with the DPM Alliance	H2 2025	Ongoing	Medium
Other new supervisory and resolution reporting ¹ and how they can be integrated	EG on Semantic Integration, Steering Committee, RCG	H1 2025	Ongoing	Medium
Investigation of options for achieving proportionality without impairing the reported data	Steering Committee, RCG	Depending on resources		Medium
Ad-hoc topics	Steering Committee, RCG	Continuous activity		Medium

2. Meetings of the JBRC and its substructures in 2025

The JBRC in full composition will have one meeting in the second half of 2025. The Steering Committee will have three meetings in 2025, of which one will be a joint meeting with the RCG organised during the second quarter of 2025. The meetings are planned to be organised in virtual form. Additional ad hoc meetings can be organised if needed.

The RCG and the EG on Semantic Integration will organise their meetings independently.

¹ E.g. already planned new reporting: FINREP, MICAR, Third Country Branches, Credit Risk COREP, Resolution Planning, Operational Risk (operational losses) and Liquidity Reporting.
